NEWSLETTER · NOVEMBER 2026

From “I know” to “I can show.”

Discover strengths. Build skills. Demonstrate potential. Create opportunities.

Connecting learners, mentors, and communities across the **United States, India, and Africa.**

A MESSAGE FROM OUR BOARD

Potential is everywhere. Opportunities is not.

At EqualXS Foundation, we bridge the gap between knowing and doing. Through free digital tools, hands-on workshops, mentorship, and opportunities to showcase their work, we help people discover their strengths, practice skills, and take meaningful steps toward learning, contribution, and earning.

Working alongside volunteers and local partners, we are building inclusive pathways that reach beyond geography, background, and ability.

Our inaugural newsletter celebrates the people, progress, and possibilities shaping this journey.

30+
events and learning experiences

3,000+
people engaged across our community

15+
countries reached through participation

100+
supported toward next steps

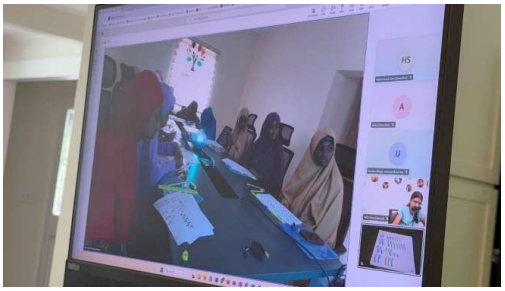
Reach figures span different engagement channels and are not a deduplicated count of individual participants.

KEY EVENTS

Our calendar this past term was filled with hands-on community action. EqualXS has been showing up at seminars, community days and campus sessions run with schools, universities and partner organisations around the world.

Africa Engagement Programme

Read more › | Watch session 1 › | Watch session 2 › | Watch session 3 ›



Across rural African communities, EqualXS has brought learning, creativity and mentorship closer to **250+ young people**, especially rural girls with limited access to education. More than **20 events**, from STEM and everyday life skills to calligraphy and a shared passion for mathematics, focused on career guidance, confidence-building and skill-based earning opportunities.

Stanford Outreach Programme

[Read more ›](#) | [Watch Highlights ›](#)

As a **Silver Sponsor** at the Stanford Neurodiversity Summit 2026, EqualXS connected with researchers, educators and self-advocates. With **100+ community conversations**, and live demos of its digital tools, it was both a successful outreach and a rich learning experience.

Uttarakhand Outreach Initiative

[Read more ›](#) | [Community Voice 1](#) | [Community Voice 2](#)

EqualXS reached students across **10+ educational institutions**, bringing its tools and resources closer to remote Indian communities. **276+ students** joined 10+ in-person workshops and sessions on career guidance, confidence-building and skill-based earning, exploring their strengths, discovering paths beyond traditional careers, and seeing how digital skills and AI can turn interests into income.

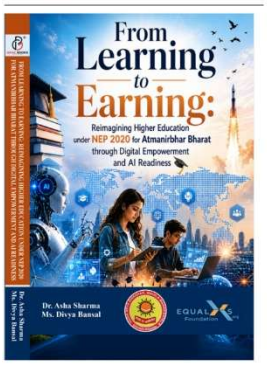
Robotics Workshop in Rural India

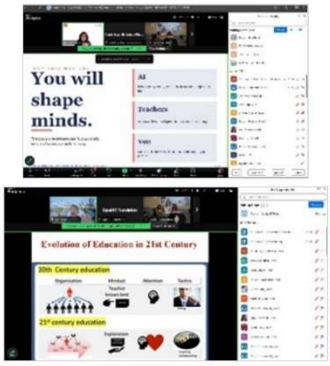
[Watch video 1 ›](#) | [Watch video 2 ›](#)

EqualXS conducted an introductory Arduino and robotics workshop for rural school students in India, offering hands-on exposure to emerging technologies. Students explored basic robotics concepts, discovered how technology can solve everyday problems, and were encouraged to ask questions, think creatively, and imagine their own innovations.
A small introduction to technology, opening doors to bigger ideas and possibilities.

International AI Seminar

[Learn more](#) | [Watch video 2 ›](#)





EqualXS brought together students, educators, researchers, and industry experts from Asia, Europe, and the United States to explore AI and digital skills. With **177 registrations and 142 live attendees**, the event also showcased research by **23 presenters from rural and underserved regions**. With EqualXS mentorship and support, their research papers were published in an **ISBN-registered book**, helping emerging researchers move from learning to creating and sharing their own work.
